S2 INFOTECH INTERNATIONAL LIMITED

Junior Software Developer 2019 - 2021   **2 YOE**

PROJECT DESCRIPTION

- Health Management Information Systems (HMIS) are one of the six building blocks essential for health system strengthening. HMIS is a data collection system specifically designed to support planning, management, and decision making in health facilities and organizations.
- MEASURE Evaluation worked in Ethiopia to implement a HMIS in the Southern Nations, Nationalities, and Peoples' Region (SNNPR) and Oromia. The following training materials were used to support implementation of the HMIS including data quality assurance and information use procedures, the electronic HMIS system for managing data processing, reporting, analysis and use; and the and the community health information system (CHIS), which organizes information on individuals and families—information related to vaccines, family planning, maternal and child health, HIV treatment and support, and other services—and makes it available all in one place, such as a family folder.

TECHNOLOGIES	J2EE, Hibernate, Spring, Maven, Log4J
DATABASE	Oracle 10g, MySQL
TOOLS	Eclipse, Tomcat, GIT

ROLES & RESPOSIBILITIES

- Develop, test, implement and maintain application software working with established processes
- Drive best practice, quality and consistency within design and development phases.
- Utilize and contribute to Credited strategic codebase to design projects.
- Identify production and non-production application issues.

- Design, implement and maintain java application phases.

- Identify opportunities to fine-tune and optimize applications of java developed projects.

- Provide technical support and consultation for java application and infrastructure questions.

  - Provide direct support to Development Manager efforts as requested

PROJECT DESCRIPTION

SPCL INFOTECH SERVICE PVT LTD   Junior Software Developer 2019 - 2021   **2 YOE**

NAME   **Environment Health and Safety**

- In this system we are maintaining various data like incidents and accidents happened in industry and Questioners asked on that particular Incident and accident.
- Whenever the particular Hazardous material is handled, then proper Material Safety Data Sheet (MSDS) should get provided.
- Also we are maintaining data related to waste materials.
